

# HOW DO I KNOW IF SANITIZING IS RIGHT FOR ME

- Does someone in the home have allergies, asthma or other respiratory health concerns?
- Has someone in the home recently been sick, including with Covid-19?
- Is there any unpleasant odors coming from your HVAC system?
- Do you suspect mold, bacteria, viruses or fungi may be present in your system?
- Do you keep pets in your home?

If you can answer yes to any of these questions, adding D7 to your service would be highly recommended!

You know how important regular air conditioning and heating maintenance is to keeping your unit working efficiently for years, but when was the last time it was thoroughly cleaned and disinfected?

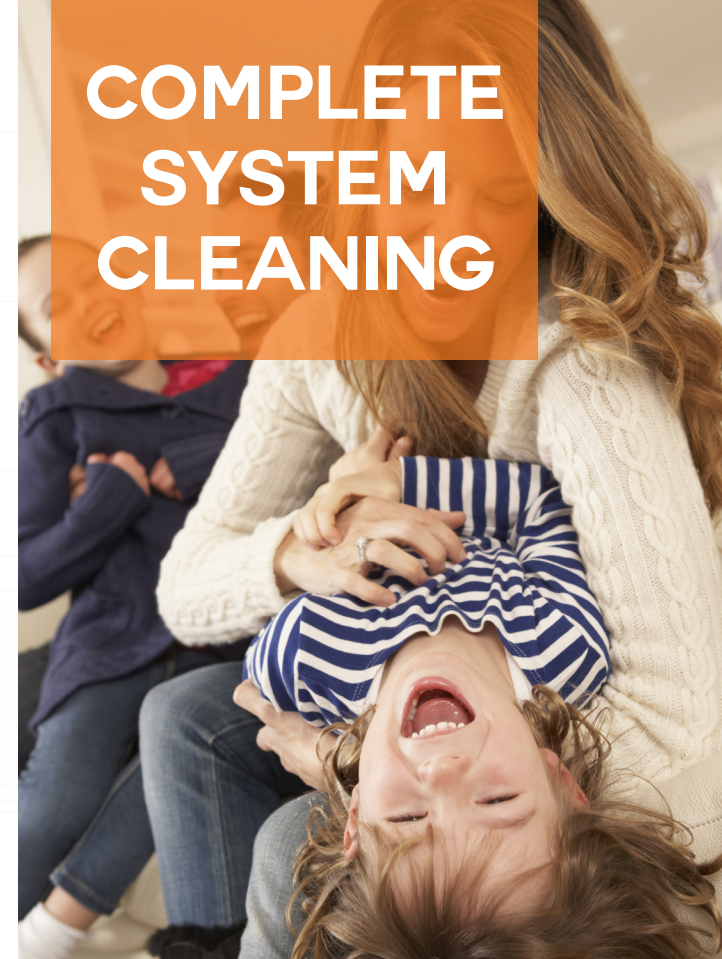

Your unit may be running in tip top shape, but you wouldn't want it blowing dust, allergens, and even germs through your home. After all a filter can only catch so much.

## COMPLETE SYSTEM CLEANING

### Don't Just Service your HVAC System, Sanitize It!

Thank you for trusting us to keep your home heated and cooled. We are excited to now be able to add a level of disinfecting with D7.

D7 cleaning technology disinfects and sanitizes your HVAC system.

DIRT  
MUCUS  
BODILY FLUIDS

## THE D7 DIFFERENCE

D7 has been specially formulated to cut through dirt, dust and grease soils. This proprietary cleaner and disinfectant makes it possible to reach even the smallest nooks and crannies, allowing for a powerful cleaning and disinfecting solution.

Understanding proper application is as important as the product being used, your service technician has undergone specialized training to ensure the sanitizing of your HVAC system is completed to the highest standards possible.

## SUMMARY OF INGREDIENTS

**HYDROGEN PEROXIDE**

**PROPRIETARY SURFACTANTS (SOAP)**

**INORGANIC SALTS**

**HYDROGEN BOOSTER**

**WATER**

**DON'T LET A DIRTY HVAC SYSTEM NEGATIVELY IMPACT YOUR HEALTHY HOME**

## CHEMISTRY THAT WORKS!

D7 capitalizes on the cleaning power of hydrogen peroxide, penetrating and disarming toxins at a molecular level. This specialized formula penetrates and eliminates pathogenic bacteria and viruses.

- Reduces pathogens up to 99.9999%\*
- Effective against COVID and SARS-CoV-2 viruses\*
- Multiple mechanisms to kill pathogens
- Mild ingredients
